

PURPLE FIELD PRODUCTIONS PROUDLY PRESENTS TEN WONDERFUL YEARS OF FILM MAKING

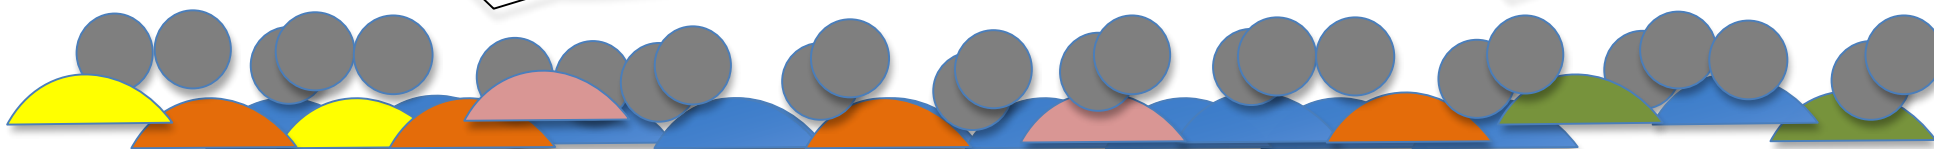

Please help us fund the next ten years

- **12 FILMS – DRAMAS, DOCUMENTARIES AND FOR TRAINING** (Bangladesh, Cambodia, Malawi, Kenya, Rwanda, Ghana & Sierra Leone) in local languages providing crucial information and increased understanding on issues relating to health, disability, food sustainability and the environment.
- **TRAINED 3 FILM GROUPS** of marginalised and unemployed people (Bangladesh, Rwanda, & Sierra Leone) so that they can make their own films now.
- **2 DISTRIBUTION PROGRAMMES** (Cambodia & Ghana) taking our films into schools, colleges and hospitals, and screening them on long distance buses.
- **BACKPACK, PEDAL-POWERED CINEMA** (Malawi) introduced to take films to the most remote communities where information is most lacking and there is no electricity.
- **DIGITAL MAGAZINE** (Malawi) introduced in Chichewa language to increase the number of useful films available to local people, to provide opportunities to Malawian filmmakers and to encourage the sharing of educational film between communities and between nations.

These life-changing films have reached literally hundreds of thousands of people, lives have been saved from HIV, local farmers enabled to combat climate change and grow more food, and disabled people saved from stigma and isolation. **And all for just £123,000 in total!**

"The film has ginger me to go all out to fight for the rights of children with disability in the country"

"Now I know these children are not snakes in our community"
